Pegasus Theatrical designed the new light show at the Beach Grill around the Given DMX Shuttle. The Shuttle is the tsunami of centerpiece effects with a 2,500 watt HMI lamp, 24 moving beams, eight interchangeable gobos, and 23 pre-programmed scene sequences. The shuttle can chase through these scenes automatically, or every feature can be controlled via DMX.

The Shuttle is a light show in and of itself, but Pegasus Theatrical also installed six Martin MiniMac Profile fixtures, two Mobolaser laser systems, five American DJ bubble machines and two DMX Megastobes, all on a custom fabricated 12' diameter truss!

RENOVATING? REMODELING? NEW CONSTRUCTION?
